

PROJECT DESCRIPTION

European Program	Leonardo da Vinci. Mobility
Deadline	5- February- 2010
Deadline for expression of interest	11—January- 2010
Project title	MobilityVal
Summary of the proposal	<p>The main idea of the project under the mobility sub-programme is to send professionals working in the Department of Employment and Promotion of Entrepreneurship Projects to other European entities.</p> <p>The final objective is to support participants in training and further training activities in the acquisition and the use of knowledge, skills and qualifications to facilitate personal development, employability and participation in the European Labour Market.</p> <p>The Department of Employment and Promotion of Entrepreneurship Projects of the City Council of Valencia actively works in the development of programs and actions which encourage the insertion in the labour market and in the implementation of actions which create new and more stable jobs. In other words, it provides supports to new entrepreneurship projects in order to boost self-employment and entrepreneurship initiatives. The main goal of all these actions is to achieve a higher level of employment and of higher quality. Furthermore, a special attention is dedicated to the people who are affected by social exclusion and have difficulties in entering the labour market.</p> <p>For all these reasons, a transnational mobility of the workers of our Department to other European entities that are working on the same subjects seems to be more than rewarding through the exchange of good practices and methodology as well as an opportunity to make improvements in the language of the country where the mobility is taking place.</p>
Budget
